Webinar - Heliport Lighting and Solutions Capabilities

Somerville, Victoria, Australia – 2 September 2020 – Join Avlite Systems for our first online webinar for our global partners and customers. The webinar topic will be: 'Heliport Lighting and Solutions Capabilities' on Thursday 10 September at 2 pm UTC+10.

The first global Avlite webinar includes:

- Market Trends, Needs and Direction of Heliports
- Our Heliport product range
- Our Control and Monitoring Solutions
- Our Solutions Capabilities - standard and customised
- Case Study: Hobart Hospital
- What is coming next for Avlite Heliport range?

The Avlite Heliport capabilities webinar will be hosted by Michael Walker, Head of Global Sales and Marketing. He will introduce Avlite and give a brief overview of our Heliport business.

“Avlite’s established distributors and customers are the reason we continue to grow and succeed. Avlite offers more than just lighting fixtures. We can provide the control, monitoring and electrically engineered solution to complete your project. In this webinar, you will get an insight into how we can assist with all aspects of your heliport lighting needs,” said Walker.

Presenting the in-depth technical overview of the Heliport range and functionality will be Wade Evans, Product, Project and Solutions Manager for Aviation and Digital. Vicky Clarke, Sales Engineer for Australia and the Pacific presenting a recent installation Case Study.

Please stay up to date at www.avlite.com for our future webinars.

[Register](#) now for our webinar to learn more about Avlite’s Heliport range and capabilities.

Company Information

Avlite Systems is a world-class aviation lighting systems manufacturer providing turnkey solutions for defence, government, civil and humanitarian aid applications in the most remote, toughest environments. Avlite's commitment to research and development, product innovation and agile manufacturing continues to make us an industry leader in aviation lighting while being environmentally responsible by providing clean, green, renewable energy sources with a minimal environmental footprint.
