Avlite's High Mobility Airfield Lighting System (AV-HMALS®) at 2022 AAAA Summit

Tilton, New Hampshire, USA – March 8, 2022 – Avlite Systems and Flash Technology belong to SPX Corporation's Aids to Navigation business unit. Together, they will be exhibiting at the 2022 Army Aviation Mission Solutions Summit, hosted by the Army Aviation Association of America (AAAA). The Summit will be held from April 3 to 5 at the Gaylord Opryland Hotel and Convention Center in Nashville, Tennessee.

This three-day event brings 9000 attendees and over 350 exhibits. It is an opportunity for the entire Army Aviation Community to gather in one location and focus on all areas related to Army Aviation issues.

The Portable Airfield Lighting Trailer (PALT), which is one of many trailer options of the High Mobility Airfield Lighting System (AV-HMALS®), will be showcased at the Summit. The PALT is shown in North Atlantic Treaty Organization (NATO) Green, but trailers are also available in Desert Tan.

Alongside the PALT, on display will be the following military lighting products ideal for an expeditionary application:

- AV-426 Solar Aviation Light
- AV-70 Solar Aviation Light
- AV-PAPI Portable Precision Approach Path Indicator Light
- AV-WRL Wired Runway Light
- AV-SSBL Stand-alone Steady Burning Light
- Portable Wind Cone

The military lighting is available in both visible and IR lighting modes for secure operations. Avlite's High Mobility Airfield Lighting System (AV-HMALS®) is a portable system easily configurable to operational requirements. The highly efficient and rapidly deployable airfield lighting products create a robust solution for any portable airfield lighting challenge.

Visit the Avlite Systems and Flash Technology team for a live demonstration at **Booth #1932**.
